

Office Memorandum • UNITED STATES GOVERNMENT

TO : Dr. Shields Warren, Chief, Division of
Biology and Medicine, Washington, D. C.

FROM : Roy C. Hageman, Chief, Operations Division,
Office of Hanford Directed Operations, Richland, Wn.

SUBJECT: TRANSMITTAL OF REPORTS

DATE: December 4, 1947

403938

R

SYMBOL: HDPRE

Transmitted herewith are copies 1, 3, 4 and 5 of Report UWFL-7, entitled "Radiobiological Resurvey of Bikini Atoll during the Summer of 1947", and prepared under the direction of Dr. Lauren R. Donaldson, University of Washington.

If the contents of this report are approved by you, Dr. Donaldson has requested that copies 4 and 5 be forwarded to the Special Weapons Project.

It is the present intention of this office to issue subsequent reports prepared by Dr. Donaldson in accordance with standard distribution lists specified in Report M-3679. The contents of these reports would presumably place them in either the "Health and Biology - General" or the "Health and Biology - Fissionable Materials" category.

Since cleared clerical personnel at the University of Washington are limited at present, tentative arrangements have been made with Oak Ridge, Tennessee for reproduction of each report to fulfill the more extensive distribution specified by the standard lists.

Wendell K. Crane

Wendell K. Crane
Assistant Chief, Research Branch
